EMERGENCY SUPPORT FOR STUDENTS FROM SYRIA: COMMITMENT TO ACTION/RENEWAL

Introduction

The crisis in Syria has created an academic emergency, with the breakdown of higher education within the country and major obstacles facing Syrian students who are studying in or outside of Syria. There is an urgent need to provide emergency assistance to these students to enable them to continue their academic work in safe haven countries until they can return home to help rebuild their country.

The Global Platform 4 Syrian Students is a multi-stakeholders initiative launched by former President of Portugal, Jorge Sampaio, with the support of a core-group of partners, namely the League of Arab States, the Council of Europe, the IOM, the Institute of International Education. It also brings together a wide range of NGOs, Foundations, the private sector and individuals. The Global Platform 4 Syrian Students aims at providing emergency scholarship and grants to students whose education has been interrupted by the crisis. It is based on an Academic Consortium made up of Universities and Higher Education Schools that have committed to receive Syrian Students and grant them partial or full tuition fees waivers.

A core component of our Commitment to Action is to reinforce the Emergency Student Fund that offers scholarships to assist threatened Syrian students, with a goal for 2015-2016 of awarding up to 1000 scholarships and grants. Realizing this goal depends on you, on your contribution, on your support – help us to make it possible!
